

Grow Your Courier Business with iApotheca's Pharmacy Network (1000+ strong).

iApotheca Healthcare has been a **top Canadian pharmacy software company since 2014**. During that time, we've built relationships with many of the **leading pharmacy chains and banners** in the industry.

We also service more than **1,000 pharmacies across Canada**.

Right now, many pharmacists are facing a critical issue: the need for prescription delivery is one they simply can't ignore.

Yet it's so tough to find reliable prescription delivery services.

Many pharmacies are facing a tough decision between hiring their own delivery drivers or outsourcing to a courier service.

To justify the expense of hiring a driver, pharmacies must have enough delivery demand to make offering a delivery service cost effective. And many smaller pharmacies don't.

Yet outsourcing is a huge challenge.

Pharmacies must be able to trust their prescription delivery service to these outsourced drivers.

Many pharmacies report being frustrated with **trying to find a reliable, affordable courier company** in their local area.

To help our customers address this issue, iApotheca Healthcare has developed the **first prescription delivery courier network in Canada**. Our launch is coming up in March 2022 in the Greater Toronto Area, but we have **several hundred pharmacies** across Canada waiting to use the network.

After careful research, our analysts identified your company as a potential courier partner for our network.

Our Search for the Perfect Courier Partners

iApotheca has spent nearly a decade building a **loyal pharmacy clientele of more than 1,000 pharmacies.**

How did we do it?

We focused on:

- Developing an efficient and innovative pharmacy software, including our EconoRoute™ delivery platform
- Staying current with vital industry knowledge and requirements, such as compliance, which is a challenge in and of itself

And most importantly:

- Forging strong relationships with our pharmacy customers through outstanding customer support.

Our pharmacy relationships are our lifeblood, and now we're ready to share both our clientele and our industry knowledge with a **select group of courier partners.**

For the right partners, potentially you, this could mean significantly more customers—and greater revenue—for your business.

About the iApotheca Courier Partner Program

So what can you expect if you qualify for the iApotheca Courier Partner Program?

You'll have access to:

- More than 300 pharmacies in the GTA to start, and over 1,000+ pharmacies across Canada as we grow.
- All the industry knowledge and coaching you need to meet compliance guidelines.
- Up-to-the minute information on industry news or issues affecting prescription delivery.
- Feedback from some of the top experts in the industry.
- Free access to our exclusive EconoRoute™ delivery platform.

And as an added bonus, you'll also have free access to professional resources and marketing assets to help you market and grow your courier business.

At iApotheca, we believe prescription delivery is one of the biggest opportunities to come to our industry in years.

And we've made it easy for you to take advantage of it. Simply sign up, offer exceptional service and we'll **connect you to our over 1000 pharmacies across Canada.**

Partnerships like this don't come along every day.

P.S.: It's **free** to enter our **courier partner program**. While this may change as the network grows, any partners we take on at this stage can expect the program to be **free forever**.
