

## Introducing the All-New iApotheca Narcotics Reconciliation™ Module

At iApotheca, we've helped with many narcotics reconciliations over the years. It's what we do. So we've picked up a few tips on how to make reconciliations easier.

Now, we've paired our knowledge and experience with your feedback and suggestions.

The result?

The all-new iApotheca Narcotics Reconciliation™ Module.

We think you're going to love it.

Right now, the module is in testing, but we'll be ready to release it very soon. In the meantime, check out [Introducing the All-New iApotheca Narcotics Reconciliation™ Module](#).

You can read it on the iApotheca blog.

In the article, we outline **11 all-new features** that will make your reconciliations fast and flawless. And, we talk a bit about how each one is **going to make your life easier**.

You can read about **features you've requested**, like:

- An all-new, simple layout that makes reconciliations quick and easy to understand.
- Super easy counts handling with pre-loadable count templates, multiple item location tracking, and more.
- A brand-new upload tool with new and improved spreadsheet recognition, duplicate management, and pack-size handling.

- Powerful investigation tools to solve discrepancies fast.
- Real-time chat support so you never have to spend time calling in- we're always right there with you!

The all-new iApotheca Narcotics Reconciliation™ module makes reconciliations fast and flawless.

Check out the article on the iApotheca Blog today.
