With our NR module you can expect:

Tips on reconciling discrepancies.

Full training at your convenience.

Expert support through the entire reconciliation process.

Clear and detailed exporting.

The iApotheca team are the experts in simple and stress-free Narcotics Reconciliation.

For more information, book a demo today.

Temperature Monitoring

With the iApotheca Temperature Module, you get hassle-free temperature monitoring by the pharmacy compliance experts.

Built to help pharmacies comply with regulations to protect vaccines and other drugs that require refrigeration, the module:

Sends alerts via text or email.

Sets temperature ranges for one or multiple fridges.

Notifies the pharmacy of any issues.

The iApotheca Temperature Monitor can be installed in under five minutes and is easy to configure with your pharmacy WIFI.

The module also provides full downloadable temperature reports.
